Data Processing

The Owner does not store, collect or process personal data for commercial purposes.

Analytical tools used to operate the website

A cookie is a short text file sent to the browser by the visited websites. Cookies do not allow access to the devices of website visitors nor to any information or personal data about the visitor as a private person. Cookies allow websites to store information about a visit in order to remember safe search preferences, monitor the number of visitors to the website, simplify logins and protect personal data. We store the following: IP address, type of device, operating system and browser. This information gives statistical insight into when and how users browse the website and enables the website to operate responsively. Cookie settings - either accepting or denying cookies - can be changed by the user in their browser settings at any time.

Essential cookies contain basic information to enable navigating the website and use its functions. Analytical cookies collect information about how the website is used, e.g. which subpages are visited most frequently and whether any error messages were displayed. All information is anonymous and is only used to improve the functioning of the website. Preferences cookies store the preferences of the user, in our case the language version.

The website makes use of third-party analytical tools of [Google Analytics](https://www.google.com/analytics/) which provide information about the number of visits, unique visitors, repeat visits, type of device and time spent on the website.
